

Applicants submit herewith a substitute specification amending typographical errors present in the original application. The amendment to the specification includes a correction of a typographical error in the units of surface energy. The original specification has units of dynes/cm² instead of the proper units for surface energy, dynes/cm. The applicant requests the same correction of the units for surface energy in Figure 6b. A marked copy of Figure 6b has been submitted for your approval.

Applicants also enclose a marked-up version of the specification showing changes made. No new matter is added.

Conclusion

Applicants respectfully request entry of these amendments prior to examination of the above-referenced application. The Examiner is urged to telephone the undersigned in the event that such communication is deemed to expedite prosecution of this matter.

Dated: 17 October 2002
